

PRESS RELEASE

PEMBROKESHIRE FRIENDS OF THE EARTH

March 27, 2012

25 TREES FOR 25 YEARS

Pictured are some of the supporters of Pembrokeshire Friends of the Earth involved in a tree planting scheme to commemorate the group's 25th anniversary. Group members recently planted 25 trees to celebrate 25 years of successful activity on a wide range of environmental issues.

The coordinator of Pembrokeshire Friends of the Earth, Eleanor Clegg, said:

"Over the years, the group has opposed polluting activities, initiated recycling schemes, campaigned for cleaner beaches and seas, supported cleaner forms of energy and transport, organised many public meetings and events, and much else.

"During that time, we have seen a huge increase in public awareness of environmental issues and there have been many improvements. Despite this, we continue to face numerous challenges, most notably climate change and wildlife loss.

"Pembrokeshire Friends of the Earth is planning to be fully involved in tackling these and other problems in order to protect and enhance the natural environment locally and globally."
